

Dear Parent,

Just a quick reminder that registration for 2021 Wow Summer Camp is ongoing. We are excited to offer three different programs this summer:

VIRTUAL ROBOTICS: This is a special one-week program where campers will use age-appropriate coding skills to command a virtual robot to perform various functions. Mission through Adventure Peak, calculate distance in Frozen Island and dodge some obstacle in The Lost City. Crystal Crater is the city of angles with lots of fun challenges afoot, then you program your way out of Candy Town. Complete program with a Milky way challenge. DATE: 7/12 – 7/16; 9 AM - 12 PM; 4th – 8th Grade.

GAME DEVELOPMENT: This is unique camp for older campers taught by directly by game development experts. Games have become the most popular form of entertainment. 2.69 billion people played a digital or online game in 2020 and that number continues to grow every year! Taught by game development experts, this unique camp exposes campers to the basics of game development. Date: 7/5 – 7/9; 9 AM - 3 PM; 7th – 10th Grade

SUMMER VIRTUAL OASIS: This is a series of gamified problem-solving set in an ancient historical location or in a museum. Campers will be led through a path that would involve the application of math, science and engineering principles and skills in solving fun and engaging problems. Rising 4th to 8th graders are eligible to participate in these sessions. A summary of Summer Virtual Oasis sessions is available at www.wowsciencecamp.org

Click here to register or visit www.wowsciencecamp.org

Please send questions to advisor@wowsciencecamp.org

Looking forward to a fun, engaging and productive virtual summer camp!

Fola Adeb, MTM
Executive Director

P.S. Wow! Science Camp® is not an Evesham School District sponsored event. Wow Science is a nonprofit academic enrichment program dedicated to improving children's interest in STEM.
