Vision 2024 – Strategic Planning

September 24, 2018

Dear Faculty, Parents, Students, and Community Members,

The Evesham Township School District is about to embark on **Vision 2024**, a *strategic planning* initiative that engages employees, parents, students, community members, business owners, and government leaders in the future planning of our school system. This collaborative planning process will result in a five-year plan designed to focus the District’s efforts and financial resources on mutually determined goals that support the needs of our students and the District as a whole.

Strategic planning will begin with a first meeting to discuss the District’s accomplishments, successes, and traditions that instill in us a sense of pride. A second meeting will focus participants on the expectations and needs that represent and reflect every aspect of the Evesham Township School District. A third meeting will provide participants an opportunity to define action steps critical in meeting the community’s goals and expectations by the year 2024. Details of the meetings can be found below.

The rapid pace of the 21st century creates changes every day in technology, economics, relationships, and demographics that force educators to adjust to many new challenges. **Vision 2024** allows us to identify opportunity during these challenging times and focus all the community’s resources toward common goals. Capitalizing on this opportunity will require all our courage, discipline, and creativity.

I invite you to join with the Board of Education, our faculty and staff, and all those who have a vested interest in the success of the Evesham Township School District as we begin this journey toward 2024.

Sincerely,

John Scavelli, Jr.
Superintendent of Schools
